v.

Case Number: 14-1005

United States Postal Service (USPS)  
*Respondent*

**Emergency motion for stay pending review**

On May 15<sup>th</sup> I filed document 1493163, requesting reconsideration or reconsideration *en banc* of the Court's *per curiam* panel order 1492737 requiring me to either submit a filing fee or an IFP petition with a public affidavit of my finances by June 12<sup>th</sup>. So far I have not received a response to that motion nor any indication of when to expect one.

Submitting either a filing fee or an affidavit of my finances without an order granting seal before its filing would irreparably harm the reviewability of the matter I presented for reconsideration. Simultaneously, I do not wish to violate the Court's order while it is pending review.

Therefore, I respectfully request the Court for an emergency stay of order 1492737

pending the resolution of all review thereof.

In support of this request, I propose that unless I am granted relief, I will pay the Court the \$500 filing fee within 30 days of exhausting all permitted review. If the Court would deny this proposal, then in the alternative, I propose that within 30 days of the order on this stay, I will pay the Court \$500 as a surety for the filing fee, to be returned to me if I receive relief upon review.

I request that the Court's order for stay specify either of the above alternatives for payment; that this will neither prejudice my right to review nor (if, upon review, I am granted permission to file an IFP affidavit under seal) a petition for IFP status or appointment of counsel; and that the case will proceed in all its other respects in parallel without being delayed by this matter.

Respectfully submitted,

Sai, *petitioner pro se*
